GroupWise Migrator for Exchange

Experience a ZeroIMPACT GroupWise Migration to Microsoft Exchange

Migrations can be complex and expensive projects that disrupt end-user productivity and business operations.

GroupWise Migrator for Exchange ensures project success by removing complexity, accelerating your transition, and mitigating the risk of data loss and downtime. It quickly and accurately converts email, calendars, tasks, personal address books, frequent contacts, archives, and more – in less time than you thought possible.

With GroupWise Migrator, you can transition multiple mailboxes simultaneously, automate administrative tasks, transition data directly to hosted platforms, and, most importantly, preserve the integrity of each user's mailbox for an accurate and seamless migration. This includes the unique ability to convert GroupWise recurring and custom recurring meetings to fully functional recurring meetings in Exchange, thus eliminating end-user confusion and business disruption during and after the migration.
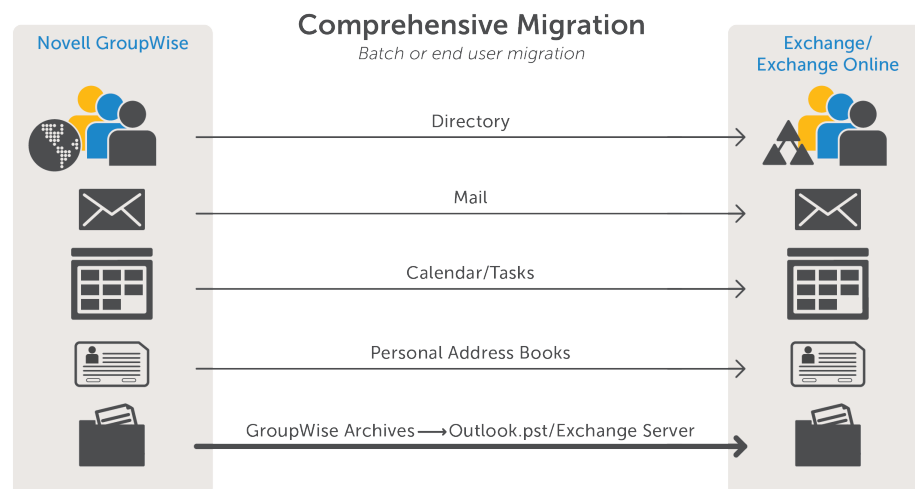

Supported target platforms include:
- Exchange 2007
- Exchange 2010
- Exchange 2013
- Office 365
- Hosted Exchange

"When considering another vendor, we were talking about a two- to four-week implementation process. With the Dell product, the live migration of 1,100 mailboxes was completed within four hours. We were expecting the archived mail to take about a week to complete and it only took about 18 hours. We actually migrated more than one million mail objects with only a .01% data corruption. To have everything done within a 48-hour period was just amazing."

Mike Moses, systems engineer, Fauquier Hospital

Benefits:
- Mitigates risk by migrating email content without downtime or data loss
- Ensures a seamless migration for end users, reducing calls to the help desk
- Migrates GroupWise archives without data loss including a direct Personal Archive target option
- Helps you eliminate or reduce the GroupWise infrastructure faster than you thought possible
- Backed by an experienced vendor with a track record of successful migrations and 24/7 global support

Comprehensive Migration
Batch or end user migration

Novell GroupWise → Exchange/ Exchange Online

- Directory
- Mail
- Calendar/Tasks
- Personal Address Books
- GroupWise Archives → Outlook.pst/Exchange Server

GroupWise Migrator quickly and accurately migrates email, calendars, tasks, personal address books, frequent contacts, archives, and more.

Features

GroupWise Migrator for Exchange ensures efficient and reliable migration to Exchange and Exchange Online with the following features:

- **FinishFast** – Multi-threaded migration engine transitions multiple mailboxes simultaneously to reduce project costs and timelines. GroupWise Migrator supports both large and small migrations – you can install multiple migration consoles as needed to further increase scalability.
- **AutoProcess** – Automates many administrative tasks, including mailbox creation and mail routing, and ensures that all migration tasks occur in the proper sequence.
- **Self-service desktop migrator** – Either end users or administrators can migrate personal data, such as local GroupWise archives, to the Exchange mailbox, Personal Archive, or Outlook personal stores.
- **Mailbox integrity** – Preserves valuable email information, including dates, times, formatting and attachments. It provides a complete address translation, so end users can reply or reply all to migrated messages without editing addresses. Preserves proxy and folder rights while accurately migrating shared folders, personal address books and folder structures, maintaining a familiar messaging experience for your end users.

- **CalendarGuard** – Converts recurring and custom recurring meetings to a fully-functional recurring series in Exchange to eliminate end-user confusion and business disruption. GroupWise Migrator also resolves all attendees to their Active Directory accounts and actively maintains routing throughout the migration. These unique processes ensure users can seamlessly calendar before, during, and after the migration.
- **QuickCloud** – You can migrate GroupWise mailbox content directly to Office 365 instead of through an intermediary server or data center, which mitigates the risk of data loss and ensures a quick and secure migration.

About Dell

Dell Inc. (NASDAQ: DELL) listens to customers and delivers worldwide innovative technology, business solutions and services they trust and value. For more information, visit www.dell.com.

System requirements

GroupWise Server
